A West Valley Leader

Now serving his second term, Jerry Weiers has earned a reputation as one of the hardest working legislators in Arizona. He has led the way for increased funding for our roads and freeways, he has worked to adequately fund our schools and to give teachers the pay raise they have been waiting for, and he has fought to keep dangerous criminals behind bars, where they belong.

Conservative Values

Jerry Weiers is a strong advocate for a secure border, and he has insisted on a proper and balanced state budget. Jerry opposed and voted against the overspending that has led Arizona into its current budget deficit and he is dedicated to balancing our budget by cutting waste and eliminating programs that do not serve Arizona's taxpayers. Jerry is also a strong advocate for pro-family policies and he has earned several awards from pro-family groups here in Arizona for his work.

Republican Principles

Jerry Weiers believes in:

- Limited government and low taxes
- A secure border and enforcement of our existing laws
- Strong employer sanctions that punish employers who knowingly hire illegal workers
- Ensuring that criminals serve their entire sentence without early release
